

Dear Sir/Madam,

Greetings from the [EU Business Hub – Japan and the Republic of Korea](#) programme.

The EU Business Hub is an EU-funded programme which supports EU companies active in the **green and low-carbon technologies, digital solutions, and healthcare and medical equipment** sectors to enter the two Asian markets by organising 10 business missions to Japan and 10 business missions to the Republic of Korea over the next four years.

We believe our business mission [Green and Low-Carbon Technologies Korea 2025](#) could be interesting to your company. 50 selected European SMEs and start-ups in the green and low-carbon technologies sector will visit [ENVEX](#) held in Seoul between 9 – 13 June 2025, and we have several benefits prepared for them.

**Key benefits for selected companies:**

- **Business matchmaking:** pre-arranged in-person meetings with carefully selected South Korean enterprises.
- **Market intelligence** information.
- **Targeted Promotion** through the exhibition of the company's products and services.
- **Hotel accommodation** (Grand InterContinental Seoul Parnas) for four nights – in total, up to €1.000 for accommodation is covered by the programme.
- **Logistical Support** and assistance throughout the mission, from exhibition setup to promotional materials.
- **Financial support** to benefit from a menu of additional customised services co-funded by the programme (e.g. interpretation, legal advice, booth decoration, etc.) – in total, up to €1000 is covered by the programme.
- **Coverage of the visitor fee** at ENVEX.

This mission is a unique chance to forge long-lasting partnerships with South Korean counterparts and expand your business horizons.

For more information, see here the Business Mission [flyer](#).

**APPLY NOW**

**Interested companies can apply** to this business mission through our website: [Green and Low-Carbon Technologies Korea 2025](#)

**Deadline for application: 21 February 2025**

Do not hesitate to contact us in case you have any question.
