

EKOMAZIVA

For partners:

We would like to meet companies from the machinery, defensive or aviation industry. We supply lubricants for metal stamping and tube bending, including application technology. In addition, consumables (masking caps, plugs and tapes) and equipment for painting, electroplating and anodic oxidation. Many other products as custom solutions.

For others:

We supply consumables (masking caps, plugs and tapes) and equipment for painting, electroplating and anodic oxidation. Many other products as custom solutions.

Partners wanted: customers, distribution partners, or suppliers of interesting solutions in our fields

Notice : He would like to obtain contact persons for Mercedes, Suzuki BYD and others which are located in Hungary
